ABOUT PAYCHEX EUROPE AND THE ROLE

Attracting, retaining, and developing talent, and paying the correct salary on time are growing challenges for many companies worldwide. To meet these challenges, we create market-leading innovative and intuitive HR, Payroll, and Workforce Management Solutions.

We are a growing product-led company with the ambition to be the best alternative for small and midsize organizations across Europe. In this pursuit, we are looking for you to be part of the team working with our Danløn Payroll and HR solution– always ensuring scalability, continuous improvement, and customer value.

We believe that software development is a team sport. You will be part of a dynamic team working in close cooperation with other Business Analysts, Product Owner, Design and our Development team.

Job area:
Product Management

Position type:
Full time

Location of job:
Allerød

Great Role and Responsibilities with Impact

We think this role offers great opportunities for fulfillment and professional growth.

Your key responsibilities will be:

- Engaging directly with users to understand their needs, challenges and feedback
- Translating insights and data into clear, value-driven user stories and measurable outcomes
- Ensure data and customer insights are actively used to make the right decisions and set the right priorities.
- Contributing to the facilitation of refinement and planning with development teams
- Collaborating closely with developers to analyze, specify, and test features
- Conducting customer validation and acceptance testing
- Providing 2nd-level product support to internal teams
- Maintaining product documentation and training guides
- Completing internal product training

Your Profile

We are looking for a skilled and curious Business Analyst with strong analytical skills, technical insight, and an eye for detail. You have the courage to navigate complex terrain and the care to ensure that nothing is overlooked. A close dialogue with customers is essential for you to understand their challenges and help us prioritize the right efforts. You will play a key role in turning customer needs into valuable solutions by bridging the gap between business and technology. You are eager to dive deep into our product, gain a thorough understanding, and build solid technical expertise.

We imagine you recognize yourself in the following:

- Proven experience as a Business Analyst working with SaaS solutions
- Experience with agile methodologies and confidence in writing clear, value-driven user stories
- Excellent data-driven skills, applying insights to guide decisions and deliver measurable outcomes
- Strong technical understanding and analytical mindset with a sharp eye for detail
- Excellent stakeholder management and communication skills, with the ability to balance priorities and clearly explain technical concepts to diverse audiences
- A strong desire to dive deep into our platform and become a subject-matter expert in Danløn
- Previous experience with payroll and HR software (preferred)
- Fluency in Danish, both spoken and written

Why us?

We strive to have a motivating and uplifting culture. Our offices are bright and open and located across Denmark (Østerbro, Allerød and Vejle) and Germany (Hamburg, Rostock, and Berlin), and we work closely together across teams. We encourage a social culture, and believe that being social with your colleagues makes taking on challenges together a lot more fun. You will be working in our office in Allerød, in a team that cares about its members and likes to have a good laugh. To

sum it up: Plenty of learning and exciting challenges in a great work environment.

If you have any questions about the position, please do not hesitate to contact Product Specialist Lead Rikke Rosenberg via rosenberg@lessor.dk or telephone +45 53 70 39 18.

Start-up is as soon as possible. Applications will be handled continuously, and we will hire as soon as the perfect candidate is found. We are looking forward to hearing from you and welcoming you to our team.
